Summary

Future computer science engineer. I am a student of Lakshmi Narain college of engineering, Bhopal with dream of becoming a great engineer after I graduate from my college. While people are creating useful software and applications to make human life easier, I want to give my contribution in the community and aspire to be a great programmer.

I love to be surrounded by computers all day long with that much of love in me for computers I learned coding in different programming languages like,

- C/C++
- Python
- JavaScript

and also I have a keen interest in Full stack Web development. So, I made myself fluent in working with different frameworks like,

- NodeJS
- MongoDb
- Django

My experience and interest in this field of programming and technology have grown a lot. I have attended workshops and run tech clubs as the Head of the department. Looking for more such opportunities in future!
